

## IE ActiveX Controls Settings for SpaceManWeb/NxG

Microsoft's Internet Explorer 7 security settings by default are quite high. They may interfere with the running of SpaceManWeb/NxG. Enclosed are recommended settings for the browser. These recommended settings should not put the computer at risk.

All these settings can be found in Tools – Internet Options – Security – Internet Zone – and it might say Custom Level.

Click on Custom Level

Scroll Down until the section: ActiveX controls and Plug-ins and verify or modify the following settings.

1. Allow previously unused ActiveX controls to run without prompt.
  - a. Enable
2. Allow scriptlets
  - a. Disable
3. Automatic prompting for ActiveX controls
  - a. Disable
4. Binary and script behaviors
  - a. Enable
5. Display video and animation on a webpage that does not use external media player
  - a. Disable
6. Download signed ActiveX controls
  - a. Prompt
7. Download unsigned ActiveX controls
  - a. Disable
8. Initialize and script ActiveX controls not marked as safe for scripting
  - a. Disable
9. Run ActiveX controls and Plug-ins
  - a. Enable
10. Script ActiveX controls marked safe for scripting
  - a. Enable

Also add [www.plandata.com](http://www.plandata.com) and [www.spacemanweb.com](http://www.spacemanweb.com) to be allowed in your pop up blocker settings if you have this configured.
